Subject: Clarification Regarding Notifications for Implementation of DAE Technologies

In continuation of letters No.

It is clarified that the newly developed / revised curricula will be implemented for the students of current session i.e. 2014-15. It has come to knowledge that some of the institutions are implementing the same for the students of 2nd year and 3rd year that is highly illogical act.

It is once again clarified for the information of all concerned that the students who are presently studying in 2nd & 3rd year of their respective DAE technology courses, the previously implemented curricula will be followed in their whole duration of studies i.e. up to the final / 3rd year.
