## ASSESSMENT NOTES

GUIDANCE FOR  
CANDIDATES

To meet this standard you are required to:

- Install, Test and repair domestic electric wiring systems and accessories.  
Your final assessment consist of four hour observation by assessors of you Installing, Testing and repairing of domestic electrical wiring system and accessories.  
You will:
- Read and interpret wiring layout to measure material quantities and prepare material list.
- Wire electrical circuit as detailed in wiring layout including use of PVC pipes, connect safely to mains supply, and test circuit for continuity, insulation and any short circuiting
- Install fixtures and accessories as required by wiring layout and retest as required.
- Diagnose any faults and rectify in accordance with standard procedures
- Safe work
- Correct tool, diagnostic instruments and test equipment selection and use
- Correct use of PPE

Your assessor will be looking for your competence in:

- Meeting wiring layout
  - Following correct sequence of wiring
  - Correct use of tools, equipment and measuring instruments to carryout electrical tasks
  - Working safely
- Answering any questions they may have for you

GUIDANCE FOR  
ASSESSORS

Assessors will need to be aware of rules, regulations and procedures applying to safe electrical operations for valid assessment of candidates's knowledge and performance.

Where model answers are provided for the Assessor, the candidate's response is not required to be identical, but similar concepts and/or keywords must be used. Oral questioning may be used to clarify candidate understanding of topic and its application.
